Re Off-Site Conference Follow-on Actions

Eloise Page caught me after Staff Meeting this morning and said she had not yet heard from you re your decision on the proposed course of action following from the February Off-Site Conference.

Attached is a copy of the cable sent to you summarizing the conference results and requesting your approval for the recommended courses of action.

If you approve the implementation of the recommended actions, I will advise Eloise so that the implementing letter can go out. (I will have it go out over [redacted] signature since there is no DDCI.)
